

Thread Triangles

▲ shown with 54-815-030
(not included)

Fowler's Thread Measuring Triangles check pitch diameter of threads on all 60° threads. Perfect for checking thread dimensions when copying parts.

- Each set includes 2 Thread Triangles and two rubber micrometer holding straps.
- Includes fitted case.

Part Number	Description
52-603-303	Pair of Thread Triangles

Acme Thread Gage

▲ Acme Std. Gage No. 52-470-160

Features—No. 52-470-160 and No. 52-470-161:

- This gage is a standard for grinding & setting tools when cutting Acme threads.
- Acme threads have the same depth as square threads, but the sides of the thread are at an inclination of 14-1/2 degrees (29 degrees included angle or 30 degrees for metric).
- Angles & edges hardened and ground.

Part Number	Description
Inch Series: 52-470-160	29 degree pitch. Range of pitch: 1-10 (1, 1-1/2, 2, 3, 4, 5, 6, 7, 8, 9, 10)
Metric Series: 52-470-161	30 degree pitch. Range of pitch: 3-10 (3, 4, 5, 6, 7, 8, 9, 10)
